NEW GENERATION HIGH QUALITY CUTTING-OFF AND GRINDING WHEELS

NORTON
SAINT-GOBAIN
NORLINE™

NORTON NORLINE CUTTING-OFF AND GRINDING WHEELS

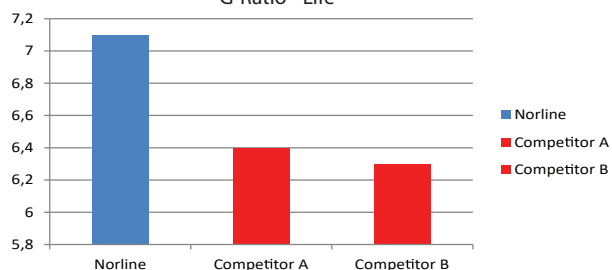

The Norton Norline range of cutting-off and grinding wheels offers a choice of high quality metal working products for all rough applications like weld removal, surface preparation, metal removal, reshaping and cutting-off rusted and corroded materials. Norton Norline is the choice of the professional and brings quick and comfortable results.

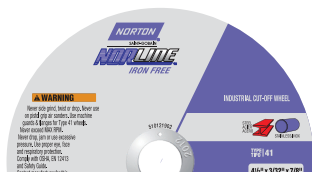

Features :

- Industrial grade for heavy duty grinding application
- High performance grain provides higher stock removal and fast cutting
- Extreme long wheel life compared to conventional products
- Free of iron (for stainless steel application)
- Low grinding temperature due to special fillers
- Comply with EN12413 safety requirement

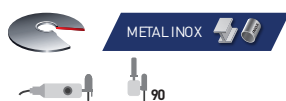

G-Ratio - Life

CUTTING-OFF WHEELS

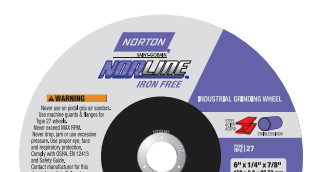

TYPE 41

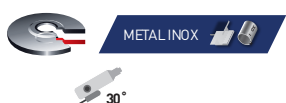

TYPE 42

GRINDING WHEELS

TYPE 27

- Cutting, light grinding and polishing with one single product
- No more time loss due to machine or product changing
- Low vibration; comfortable working
- Very smooth grinding result with incredible clean surface
